CONTENTS

CLAUSE		PAGE
0	Foreword	3
1	Scope	4
2	Definitions	4
3	Information Required	6
4	Flow Estimation	7
5	Design	8
6	Materials and construction	18
7	Inspection and testing	20
8	Commissioning	22
9	Maintenance	22

APPENDICES

Appendix A	Percolation Test	24
Appendix B	Example computations of average daily flow based on Table 1	25
Appendix C	Determination of working capacity of septic tanks	28
Appendix D	Typical septic tank arrangement	30
Appendix E	Typical soakage pit arrangement	31
Appendix F	Typical arrangement of seepage bed	32
Appendix G	Typical arrangement of seepage trench system	33
Appendix H	White towel test for septic tank	34

TABLES

Table 1	Per capita daily flows for different user categories	8
Table 2	Minimum distance between soakage pits	12
Table 3	Specific effective areas for soakage pits.	12
Table 4	Minimum depth to ground water table from bottom of soakage pit	13
Table 5	Specific effective areas for seepage beds and seepage trenches.	15
Table 6	Minimum, maximum and typical dimensions of seepage beds	15
Table 7	Typical dimension of seepage trenches	17
