NATIONAL FOREWORD

This Sri Lanka Standard was approved by the Sectoral Committee on Textiles, Clothing and Leather and was authorized for adoption and publication as a Sri Lanka Standard by the council of the Sri Lanka Standards Institution on 2003-08-28.

This series of standards supersedes SLS 1130 Method for determination of tearing force of woven fabrics.

This part of the standard is identical with ISO 13937-4 : 2000 Textiles-tear properties of fabrics Part 4. Determination of tear force of tongue-shaped test specimens (Double tear test), published by the International Organization for Standardization.

Terminology and Convention

The text of the international standard has been accepted as suitable for publication without deviation, as a Sri Lanka Standard. However certain terminology and convention are not identical with those used in Sri Lanka Standards, attention is therefore drawn to the following :

- a) Wherever the words “ International Standard/Publication” appear referring to this standard they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.

Wherever page numbers are quoted, they are ISO page numbers.

Contents

Foreword	v
Introduction.....	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Principle	2
5 Sampling	2
6 Apparatus.....	2
7 Atmosphere for conditioning and testing	3
8 Preparation of test specimens.....	3
9 Procedure	5
10 Calculation and expression of results	6
11 Test report.....	7
Annex A (informative) Suggested procedure for sampling.....	8
Annex B (informative) Example of pattern for cutting out test specimens from the laboratory sample	9
Annex C (informative) Sample calculation of tear force	10
Bibliography.....	11
