Sri Lanka Standard
METHOD FOR THE DETERMINATION OF
DYNAMIC PROPERTIES OF RUBBER, VULCANIZED OR THERMOPLASTIC
PART 1: GENERAL GUIDANCE

NATIONAL FOREWORD

This Sri Lanka Standard was approved by the Sectoral Committee on Chemical and Polymer Technology and authorized for adoption and publication by the Council of the Sri Lanka Standards Institution on 2008-07-29.

This standard is identical with ISO 4664-1:2005 Rubber, vulcanized or thermoplastic-Determination of dynamic properties – Part 1 : General guidance published by International Organization for Standardization.

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication without deviation, as a Sri Lanka Standard. However certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following:

- a) Wherever the words ‘International Standard/publication’ appear referring to a particular standard, they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point on the baseline as the decimal marker.
- c) Whenever page numbers are quoted, they are ISO page numbers.
