Sri Lanka Standard
METHODS FOR DETERMINATION OF TEAR RESISTANCE OF RUBBER- OR
PLASTICS - COATED FABRICS
PART 2 : BALLISTIC PENDULUM METHOD

NATIONAL FOREWORD

This standard was approved by the Sectoral Committee on Textiles, Clothing and Leather and was authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2008-12-19.

This Sri Lanka Standard is identical with ISO 4674 – 2 : 1998 Rubber – or plastics – coated fabrics - Determination of tear resistance. Part 2 : ballistic pendulum method.

This standard supercedes SLS 761 Part 2 : 1986 Methods of test for rubber or plastic coated fabrics. Part 2 Determination of tear resistance of rubber or plastic coated fabrics which was an adoption of ISO 4674 : 1977.

ISO 4674:1977 has been cancelled and replaced by ISO 4674-1:2003 and ISO 4674-2:1998.

TERMINOLOGY AND CONVERSIONS

The text of the International Standard has been accepted as suitable for publication, without deviation as a Sri Lanka Standard. However certain terminology and conversions are not identical with those used in Sri Lanka Standards, attention is therefore drawn to the following :

- a) Wherever the words “ International Standard/Publication” appear referring to this standard they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.

INTERNATIONAL
STANDARD
