**NATIONAL FOREWORD**

This Standard was authorized for adoption and publication by the Council of the Sri Lanka Standards Institution on 2019-08-07.

This Sri Lanka Standard is identical with **ISO 14156: 2001** Milk and milk products-Extraction methods for lipids and liposoluble compounds published by the International Organization for Standardization (ISO).

This Standard provides general requirements for the competence and consistent operation of reference material producers.

**Terminology and conventions:**

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following:

- a) Wherever the words “International Standard” appear referring to this Standard, it should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point on the base line as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.
