SRI LANKA STANDARD
METHODS OF TEST FOR MILK AND MILK PRODUCTS
PART 5 : DETERMINATION OF TOTAL SOLIDS

FOREWORD

This Sri Lanka Standard was authorized for adoption and publication by the Council of the Sri Lanka Standards Institution on 1988 - 12 - 12, after the draft, finalized by the Drafting Committee on Milk and Milk Products, had been approved by the Agricultural and Food Products Divisional Committee.

In order to accommodate the large number of test methods within the scope of one standard, this standard is published in several parts.

This standard forms Part 5 of Sri Lanka Standard Methods of Test for Milk and Milk Products.

In reporting the result of a test or an analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with CS 102.

In the preparation of this standard, the assistance derived from the publications of the International Organization for Standardization and the International Dairy Federation is gratefully acknowledged.

1 SCOPE

This part of the standard prescribes the methods of determination of total solids of ice cream, milk ice, sweetened condensed milk, evaporated milk, milk, curd and yoghurt.
