Draft Sri Lanka Standard

GLOSSARY OF TERMS USED IN METROLOGY

FOREWORD

This standard was approved by the Sectoral Committee on Basic Mechanical Engineering Standards and authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on

The majority of terms in this glossary have been taken unchanged from the ' International Vocabulary of Basic and General Terms in Metrology' published jointly by International Bureau of Weights and Measures(BIPM), International Electrotechnical Commission(IEC), International Organisation for Standardisation(ISO) and International Organization for Legal Metrology(OIML). Terms drawn from International Vocabulary carry numbers consisting of two groups, for example : 4.11 and the terms that are additional to the terms in the International vocabulary carry three group reference numbers, for example : 5.24.2.

The Sri Lanka Standards Institution gratefully acknowledges the use of the relevant publications of the BIPM, IEC, ISO, OIML and British Standards Institution in the preparation of this standard.

1 SCOPE

This glossary defines terms used in metrology.
