Sri Lanka Standard
METHOD OF TEST FOR PAINTS AND VARNISHES
PART 1: EXAMINATION AND PREPERATION OF SAMPLES FOR TESTING
(FIRST REVISION)

NATIONAL FOREWORD

This Sri Lanka Standard was approved by the Sectoral Committee on Chemical and Polymer Technology and authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2016-10-27.

This Sri Lanka Standard is the First Revision of SLS 1256: Part 1: 2004 which was an adoption of ISO 1513: 1992 Paints and varnishes- Examination and preparation of samples for testing. The text of the above International Standard has been technically revised as ISO 1513: 2013 Paints and varnishes – Examination and preparation of test samples. The International Standard ISO 1513: 2013 has been accepted for adoption as the first revision of **SLS 1256: Part 1: 2016.**

This Sri Lanka Standard is identical with ISO 1513: 2013 Paints and varnishes – Examination and preparation of test samples published by the International Organization for Standardization (ISO).

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following:

- a) Wherever the words “International Standard” appear referring to a particular Standards they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.
