SRI LANKA STANDARDS INSTITUTION

Draft Sri Lanka StandardMETHODS FOR THE DETERMINATION OF LINEAR DENSITY OF YARNREMOVED FROM WOVEN FABRICS

(First Revision)

NATIONAL FOREWORD

This Sri Lanka Standard was authorized for adoption and publication by the Council of the Sri Lanka Standards Institution on after the draft had been approved by the Textiles Divisional Committee.

This is the first revision of SLS 44 : 1969 - Methods for the determination of the count of yarn removed from fabric, free from added matter. This is identical with the International Standard ISO 7211/5 : 1984 - Textiles - Woven fabrics - Construction - Methods of Analysis - Part 5 : Determination of linear density of yarn removed from fabric. In this revision, a method for the determination of linear density of yarn removed from fabric, without removal of non-fibrous matter has been included. Further, all dimensions have been given in SI units and the title of the standard has been modified.

Terminology and convention

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. Certain terminology and conventions are not identical with those used in Sri Lanka Standards ; attention is therefore drawn to the following :

Wherever the words "International Standard" appear, referring to this standard, they should be interpreted as "Sri Lanka Standard".

The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use a full point on the baseline as the decimal marker.

Cross referencesInternational Standard

ISO 139, Textiles - Standard atmospheres for conditioning and testing

ISO/TR 5090, Textiles - Method for the removal of non-fibrous matter prior to quantitative analysis of fibre mixtures

ISO 6741/4, Textiles - Fibres and yarns - Determination of commercial mass of consignments - Part 4 : Values used for commercial allowances and commercial moisture regain.

ISO 7211/3, Textiles - Woven fabrics - Construction - Methods of analysis - Part 3 : Determination of crimp of yarn in fabric.
