# SRI LANKA STANDARD

## SPECIFICATION FOR CHEESE

### FOREWORD

This Sri Lanka Standard was authorized for adoption and publication by the Council of the Sri Lanka Standards Institution on 1987-01-07, after the draft, finalized by the Drafting Committee on Milk and Milk Products, had been approved by the Agricultural and Food Products Divisional Committee.

This specification covers four types of cheese. Examples for types of cheese are given in Appendix A.

This specification is subject to the provisions of the Food Act No. 26 of 1980 and the regulations framed thereunder.

The standard values used throughout this specification are given in SI units.

For the purpose of deciding whether a particular requirement of this specification is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with CS 102. The number of significant places retained in the rounded off value should be the same as that of the specified value in this specification.

In the preparation of this specification the assistance obtained from the publications of the Food and Agriculture Organization of the United Nations (FAO) and the Indian Standards Institution is gratefully acknowledged.

### 1 SCOPE

This specification prescribes the requirements and methods of sampling and test for cheese.
