**Draft Sri Lanka Standard**  
**DOCUMENTATION - PRESENTATION OF SCIENTIFIC AND TECHNICAL REPORTS**

**NATIONAL FOREWORD**

This standard was approved by the Sectoral Committee on Information Technology on 1994-12-06 and was authorized for adoption and publication as a Sri Lanka standard by the Council of the Sri Lanka Standards Institution on 1995-11-23.

This Sri Lanka Standard is identical with ISO 5966, Documentation - Presentation of scientific and technical reports, published by the International Organization for Standardization (ISO).

**Terminology and conventions**

The text of the International Standard has been accepted as suitable for publication, with the information given in the National Appendix which make provisions to suit existing practices in Sri Lanka. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards, attention is therefore drawn to the following :

- a) Wherever the words "International Standard" appear, referring to this standard they should be interpreted as "Sri Lanka Standard".
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards, it is the current practice to use a full point on the baseline as a decimal marker.
- c) Whenever page numbers are quoted, they are ISO page numbers.

**Cross references**

Corresponding Sri Lanka Standards for the following International standards referred in the standard are not available at present.

ISO 4, Documentation-International code for the abbreviation of titles of periodicals

ISO 30, Documentation-Bibliographic identification (biblid) of serial publications
