Sri Lanka Standard
GENERIC IDENTIFICATION AND MARKING OF PLASTICS PRODUCTS

NATIONAL FOREWORD

This Sri Lanka Standard was approved by the Sectoral Committee on Chemical and Polymer Technology and authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2017-05-04.

The text of the International Standard ISO 11469:2016 Plastics - Generic identification and marking of plastics products has been accepted for adoption as a Sri Lanka Standard. It specifies a system of uniform marking of plastic products, that have been fabricated from plastic materials.

This Sri Lanka standard is identical with ISO 11469:2016 Plastics - Generic identification and marking of plastics products published by the International Organization for Standardization (ISO).

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following:

- a) Wherever the words “International Standard” appear referring to a particular Standards they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.
