**Sri Lanka Standard For  
Grading of Timber  
Part 1: Species of Timber**

**SRI LANKA STANDARDS INSTITUTION**

~~Draft~~ Sri Lanka Standard

FOR GRADING OF TIMBER

Part 1 . Species of timber

FOREWORD

This standard was approved by the Sectoral Committee on Timber and Timber based products and was authorized for adoption as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on. 1992-10-07

This standard is in three parts at present and are as follows :

Part 1 Species of timber  
Part 2 Terminology ; and  
Part 3 Grading of logs.

It is intended to prepare further parts in this standard covering other categories such as sawn timber.

This part of the standard provides a comprehensive list of Sri Lankan species of timber utilized for industrial, commercial and other purposes. Part 2 of this standard deals with terminology applicable for grading of timber. Part 3 of this standard specifies rules relating to grading of logs.
