KNITTED FABRICS- DESCRIPTION OF DEFECTS-VOCABULARY

NATIONAL FOREWORD

This standard was approved by the Sectoral Committee on Textiles, Clothing and Leather and was authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2006-12-27.

This Sri Lanka Standard is technically identical with ISO 8499 : 2003 Knitted fabrics-Description of defects-Vocabulary published by the International Organization for Standardization (ISO).

This standard is an adoption of ISO 8499:2003.

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication without deviation, as a Sri Lanka Standard. However certain terminology and conventions are not identical with those used in Sri Lanka Standards, attention is therefore drawn to the following :

- a) Wherever the words “International Standard/Publication” appear referring to this standard they should be interpreted as “ Sri Lanka Standard ”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use a full point on the baseline as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.
