Sri Lanka Standard
METHOD FOR THE DETERMINATION OF OPACITY (PAPER BACKING) OF
PAPER AND BOARD BY DIFFUSE REFLECTANCE METHOD
(FIRST REVISION)

NATIONAL FOREWORD

This Standard was approved by the Sectoral Committee on Paper, Board and Packaging and was authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2020-07-22

This Sri Lanka Standard is SLS 1344: 2008 which was an adoption of ISO 2471: 1998 Paper and board- Determination of opacity (paper backing)- Diffuse reflectance method. The text of the above International Standard has been technically revised as ISO 2471: 2008 Paper and board- Determination of opacity (paper backing)- Diffuse reflectance method. The International Standard ISO 2471:2008 has been accepted for adoption as the First Revision of SLS 1344: 2020

This Sri Lanka Standard is identical with I ISO 2471: 2008 Paper and board- Determination of opacity (paper backing)- Diffuse reflectance method, published by the International Organization for Standardization (ISO).

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following:

- a) Wherever the words “International Standard” appear referring to a particular Standard they should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO page numbers.
