SRI LANKA STANDARDS INSTITUTION

Sri Lanka Standard
SPECIFICATION FOR PACKAGING OF WINDING WIRES

**PART 3.3: TAPER BARRELLED DELIVERY SPOOLS –NON-RETURNABLE
SPOOLS MADE FROM THERMOPLASTIC MATERIAL**

(First Revision)

NATIONAL FOREWORD

This standard was approved by the Sectoral Committee on Electric Cables and Conductors and was authorized for adoption and publication as a Sri Lanka Standard by the Council of Sri Lanka Standards Institution on 2009-10-28.

This is the first revision of **SLS 1082 Part 3.3 : 1995** and identical with **IEC 60264-3-3** : Packaging of winding wires, Part 3-3 : Taper barrelled delivery spools – Specification for non-returnable spools made from thermoplastic material Edition 1.0 1990-07 and Amd No.1: 2003, published by the International Electrotechnical Commission (IEC).

Terminology and conventions

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards; attention is therefore drawn to the following:

- a) Wherever the words “International Standard” appear referring to this standard they should be interpreted as “Sri Lanka Standard”.
- b) Wherever the page numbers are quoted they are the page numbers of IEC standard.
- c) The comma has been used as a decimal marker. In Sri Lanka Standards it is the current practices to use a full point on the base line as a decimal marker.
