Sri Lanka Standard
IDENTIFICATION CARDS – IDENTIFICATION OF ISSUERS
PART 1: NUMBERING SYSTEM
(Second Revision)

NATIONAL FORWARD

This Standard was authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2019-03-07.

This is the second revision of **SLS 1033: Part 1: 2007** and identical with **ISO/IEC 7812: 2017 Identification cards – identification of issuers, Part 1: Numbering system**, published by the International Organization for Standardization (ISO) / International Electrotechnical Commission (IEC).

This Standard provides a numbering system for the identification of card issuers operating within an interchange environment, the format of the issuer identification number and the primary account number.

TERMINOLOGY AND CONVENTIONS

The text of the International Standard has been accepted as suitable for publication, without deviation, as a Sri Lanka Standard. However, certain terminology and conventions are not identical with those used in Sri Lanka Standards. Attention is therefore drawn to the following;

- a) Wherever the word “International Standard” appear referring to this Standard should be interpreted as “Sri Lanka Standard”.
- b) The comma has been used throughout as a decimal marker. In Sri Lanka Standards it is the current practice to use the full point at the base as the decimal marker.
- c) Wherever page numbers are quoted, they are ISO/IEC page numbers.

**Identification cards — Identification
of issuers —**

**Part 1:
Numbering system**
