**SRI LANKA STANDARD
SPECIFICATION FOR PASSENGER CAR TYRES**

FOREWORD

This standard was approved by the Sectoral Committee on Chemicals and Polymer Technology and was authorized for adoption and publication as a Sri Lanka Standard by the Council of the Sri Lanka Standards Institution on 2001-04-17.

For the purpose of deciding whether a particular requirement of this specification is complied with the final value observed or calculated, expressing a result of a test or an analysis shall be rounded off in accordance with **CS 102**. The number of significant places retained in the rounded off value shall be the same as that of the specified value in this specification.

Guidelines are given for the determination of a compliance of a lot with the requirements of this standard based on statistical sampling and inspection in **Appendix A**.

In the preparation of this specification the assistance derived from the following publications is gratefully acknowledged :

- ISO 4000 : 1994 Passenger car tyres and rims
Part 1 : Tyres (metric series)
- SABS 1550 : 1992 Motor vehicle tyres and rims dimensions and loads
Part 1 : General
Part 2 : Passenger car tyres
- SABS 1565 : 1992 Pneumatic tyres for passenger cars and trailers

1 SCOPE

This standard prescribes the designation, dimensions, markings and performance requirements for passenger car tyres.
